1. Extension Installation Guide

- Go to My downloadable products. The file that you download normally is a zip file.
- Use FTP client (such as Filezilla, WinSCP, cuteFtp) to upload or copy all folders in the zip package to your Magento site root folder. This will not overwrite any existing files, just add new files to the folder structure.
- Open Command line in folder root of Magento and run following command respectively:
 - php bin/magento setup:upgrade
 - php bin/magento setup:static-content:deploy
 - php bin/magento indexer:reindex
 - php bin/magento cache:flush
- Navigate to Stores/Configuration, if you can see the extension tab, it is installed properly.
- If you need professional help regarding [Magento Extension Installation](#), Feel free to contact us any time.

2. Configuration

Once you have successfully installed the extension, go to **Stores → Configuration → Sales → Payment Methods → Alipay Payment** to configure the extension for use. Here you can find various settings for the Alipay Payment method to configure the extension for use.

- **Enabled:** Set Yes to enable Alipay Cross Border Payment extension.
- **Title:** Enter payment method title to show in frontend.
- **Client Secret:** Enter client secret provided while registration with Alipay.
- **Partner ID:** Enter partner ID provided while registration with Alipay.
- **Security Code:** Enter security code for Alipay.

5. Deactivation of Extension in Case of Emergency

- Go to `app` → `etc` → `config.php` and find '`Magecomp_Alipay`' => 1, and replace 1 with 0.
- If something goes wrong, please contact us at <https://www.magecomp.com/helpdesk> or send us an email at helpdesk@magecomp.com

6. FAQs:

- **What if I get “Access denied” error after installation of the extension?**
Whenever you get Access denied error while clicking on the extension tab after installation, log out admin panel and re-login.

Thank You!
