1. Extension Installation Guide

- Go to My downloadable products. The file that you download normally is a zip file.
- Use FTP client (such as Filezilla, WinSCP, cuteFtp) to upload or copy all folders in the zip package to your Magento site root folder. This will not overwrite any existing files, just add new files to the folder structure.
- Open Command line in folder root of Magento and run following command respectively:
 - php bin/magento setup:upgrade
 - php bin/magento setup:static-content:deploy
 - php bin/magento indexer:reindex
 - php bin/magento cache:flush
- Navigate to Stores/Configuration, if you can see the extension tab, it is installed properly.
- If you need professional help regarding [Magento Extension Installation](#), Feel free to contact us any time.

2. Configuration

Once you have successfully installed the extension, go to **System → Configuration** to configure the extension for use. Here you can find various settings for the extension.

- **Delivery Date:** Option to enable or disable extension.
- **Delivery Date Label:** Set label to show Delivery Date for selection on checkout page.
- **Comment Box:** Enable or disable comment box for customers in frontend.
- **Comment Box Label:** Add comment box label to show on frontend.
- **Frontend Picker Type:** There is two options to choose from.
 - **Date Picker :** Allows customer to pick only date from the store frontend.
 - **Date & Time Picker :** Allows customer to pick date & time both from the store frontend.
- **Display time:** Choose the date format you want to use.

The screenshot shows the 'Configuration' page for the MageComp extension. The left sidebar has a 'Delivery Date' tab selected. The main content area contains the following settings:

- Delivery Date:** A dropdown menu set to 'Enable'. An orange box highlights this field, and an arrow points to it from a text box that says 'Enable or disable extension from here'.
- Delivery Date Label:** A text input field containing 'Preferred Delivery Date'. An orange box highlights this field, and an arrow points to it from a text box that says 'Delivery date label to show on frontend'.
- Comment Box:** A dropdown menu set to 'Enable'. An orange box highlights this field, and an arrow points to it from a text box that says 'Enable or disable comment box in frontend'.
- Comment Box Label:** A text input field containing 'Comments'. An orange box highlights this field, and an arrow points to it from a text box that says 'Enter comment box label'.
- Frontend Picker Type:** A dropdown menu set to 'Date & Time'. An orange box highlights this field, and an arrow points to it from a text box that says 'Select Frontend date / time picker as per need'.
- Display Type:** A dropdown menu set to 'yy-mm-dd'. An orange box highlights this field, and an arrow points to it from a text box that says 'Select date format you want to use'. Below this field, it says 'Default time format is hh:mm:ss'.

3. Delivery Date & Time Settings

- **Exclude Delivery Days:** Select week days to exclude from delivery.
- **Delivery Hours From and To:** Set delivery time span in 24 hours format.
- **Same Day Delivery:** Enable to allow same day delivery.
- **Minimal Delivery Interval:** Set intervals in days to start delivery days from.

4. Frontend Picker Type:

Once you save the configurations and settings, you can see Delivery Date enabled. Once customers choose all the options, quantities and add product to cart, Delivery Date can be seen on checkout page for customers to select order delivery date for products they purchase.

- Delivery Date Picker on checkout page:

Delivery date on checkout page

The screenshot displays a date picker interface. At the top, it shows "August 2018" with navigation arrows. Below is a calendar grid with days of the week (SU, MO, TU, WE, TH, FR, SA) and dates. The date "2" is highlighted in pink, and "4" is highlighted in orange. Below the calendar is a text input field containing "2018-08-02" and a calendar icon. Underneath is a "Comments" section with a text area containing "Its Birthday Gift for my cousin, please wrap it for me." and a submit button.

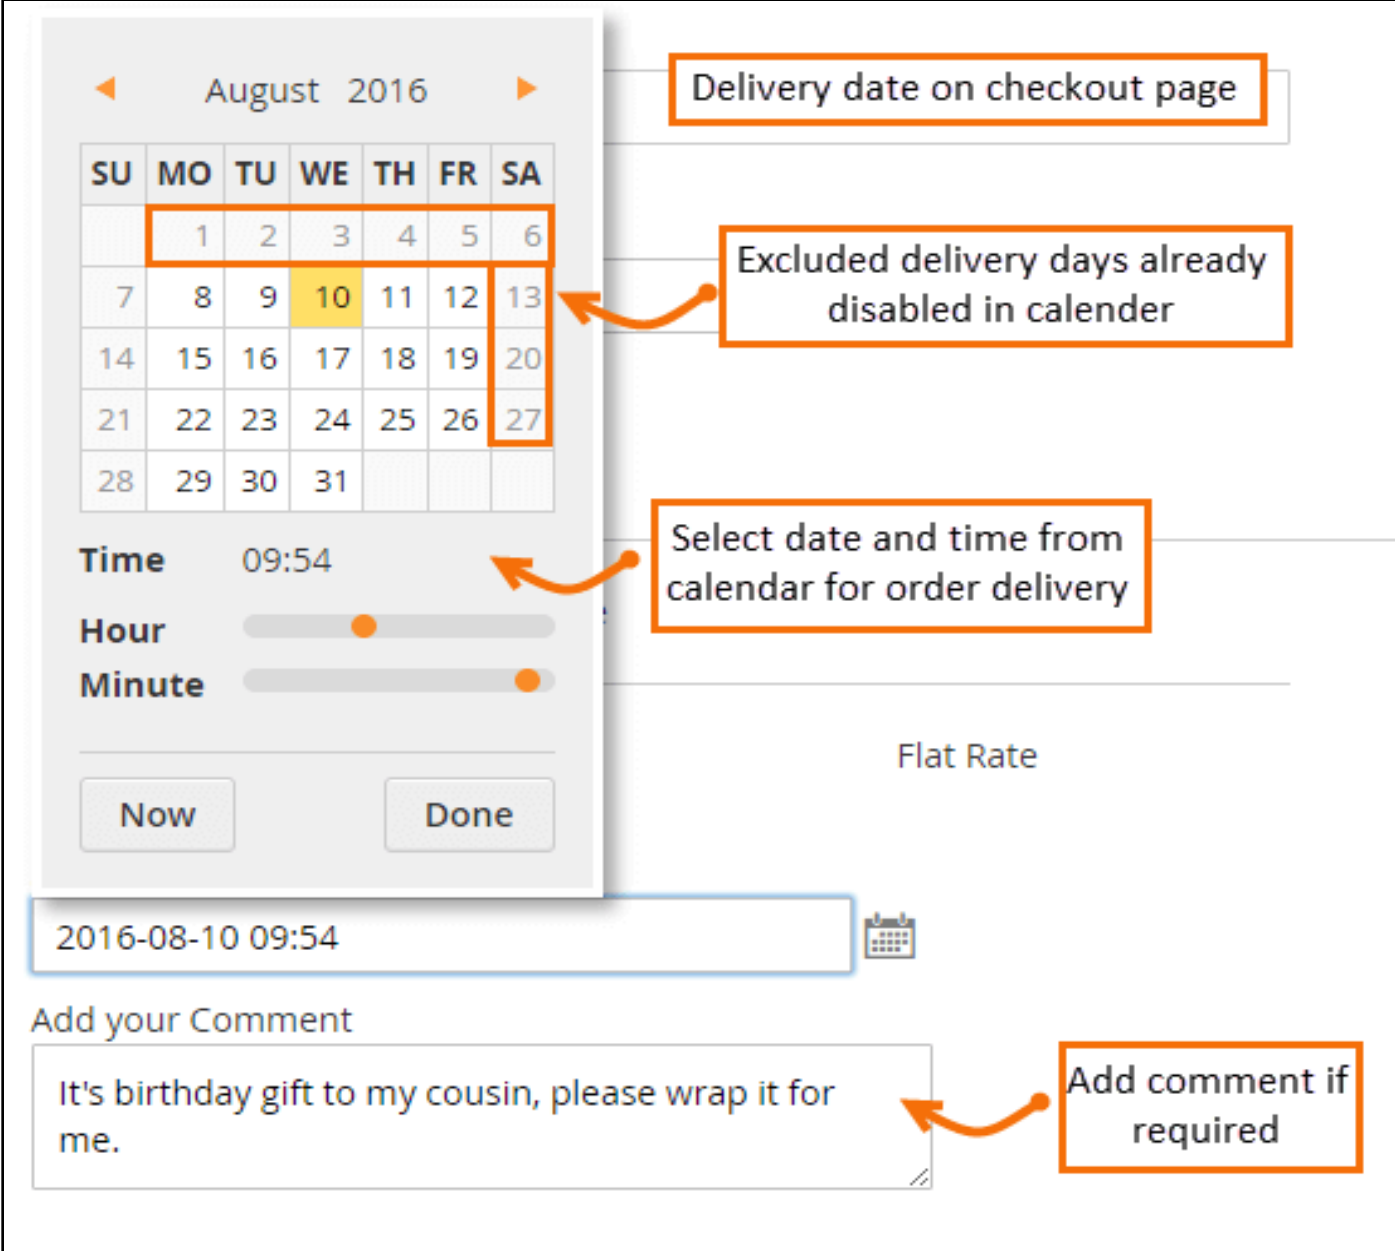

SU	MO	TU	WE	TH	FR	SA
			1	2	3	4
5	6	7	8	9	10	11
12	13	14	15	16	17	18
19	20	21	22	23	24	25
26	27	28	29	30	31

8. Deactivation of Extension in Case of Emergency

- Go to `app` → `etc` → `config.php` and find '`Magecomp_Deliverydate`' => `1`, and replace `1` with `0`.
- If something goes wrong, please contact us at <https://www.magecomp.com/helpdesk> or send us an email at helpdesk@magecomp.com

9. FAQs

- **What if I get “Access denied” error after installation of the extension?**

Whenever you get Access denied error while clicking on the extension tab after installation, log out admin panel and re-login.

Thank You!
